

```
graph BT; A[zct::GpioReal] --> B[zct::IGpio]
```

Diagram illustrating the relationship between two classes:

- The top class is `zct::IGpio` (white box).
- The bottom class is `zct::GpioReal` (gray box).
- A blue arrow points from `zct::GpioReal` up to `zct::IGpio`, indicating that `zct::GpioReal` inherits from or implements `zct::IGpio`.

`zct::GpioReal`
