

zct::IGpio

```
graph BT; GpioMock[zct::GpioMock] --> IGpio[zct::IGpio];
```

A UML class diagram illustrating inheritance. At the bottom is a gray-shaded box labeled 'zct::GpioMock'. A blue arrow points upwards from this box to a white box at the top labeled 'zct::IGpio'. The arrow indicates that 'zct::GpioMock' inherits from or implements 'zct::IGpio'.
