

zct::Timer

```
graph BT; A[zct::TimerManager::TimerExpiryInfo] -.->|m_timer| B[zct::Timer];
```

The diagram illustrates a pointer relationship between two C++ classes. At the bottom, a grey rectangular box contains the text `zct::TimerManager::TimerExpiryInfo`. A dashed purple line originates from this box and points upwards to a white rectangular box at the top, which contains the text `zct::Timer`. The dashed line is labeled with the text `m_timer` in a light grey font.
